Eastern Hills High School serves a very diverse and transient population. EHHS uses core values to enhance culture and climate for the entire school community. We will continue to embed all core values in academics and social emotional needs to create a culturally responsive environment in school wide routines, procedures and systems. High expectations need to be systematically and explicitly communicated to all stakeholders to ensure student success is the norm rather than the exception. Development and use of campus-based culture/climate surveys will be analyzed to ensure key indicators are developed, sustained, and maintained.

Rgtegrvkqpu"Uvtgpivju

We currently have an Accountability Rating of "Unrated. Our school community continues to graduate at least 95% of the 12th grade class annually. Each year more and more students are earning their CCMR
