THE UNITED STATES SINCE 1865

“American history,” wrote James Baldwin, “is longer, larger, more various, more beautiful, a history to uncover the range and depth of

the American story. Using lectures, primary and secondary readings, videos, maps, and other graphics, students work both independently and collaboratively to develop the critical thinking skills to evaluate the historical record. History 315K surveys from the colonial beginnings through the Civil War, and History 315L considers the post-Civil War era to the end of the 20th century. Exams include essay questions that require students to craft well-written narratives and arguments that set events in historical context, engage the complexity of cause and consequence, and make connections that

BIG IDEAS

AMERICAN IDENTITIES

Since its colonial beginnings, the American identity has been formed by sometimes uneasy and evolving relationships among many people.

LABOR AND TECHNOLOGY

New machines and technologies have expanded America's agricultural and industrial productivity, but often at the expense of workers, both free and enslaved.

AMERICA AND THE WORLD

America's role in the world began on the periphery and has moved to take a central place.

REFORM AND RENEWAL

The Puritan mission to create a City on a Hill has been adopted in many forms throughout America's history, resulting in social and political movements that reinvigorate and

democracy reflect a hLanving and carefully negotiated balance
